GILMORE TRIAL BEGINS TODAY

31 JURORS OUT OF 60 SELECTED FOR THE PANEL OF 40.

M'CAFFREY ASSISTS PROSECUTOR SAWYERS

The Selection of the Jury of Twelve Will Take Place Tomorrow — Mrs. Gilmore in Good Health.

At four o'clock this afternoon thirty-one had qualified for the panel of forty from which the jury of twelve will be selected. They are:

Ernest Wray, Charles Garrett, Lou Rogers, James W. Rhodes, W. T. Jackson, Joe Alexander, H. A. Coulter, Fay Casteel, T. E. Archer, Willis Oxley, Joe Holker, Ol Coleman, James Enis, Robert Aley, W. I. Gray, Earl Heflin, Fred Breit, George Ballard, Charles Moore, H. H. McClurg, J. H. Neal, J. V. Pugh, M. L. Griggs, W. F. Hartman, A. M. Sutton, Ed Husbands, F. O. Black, A. M. Kirby, A. E. Hopper, Ed Allen, James Lewis.

The panel of forty will be selected late this afternoon and the selection of the jury will take place tomorrow.

Charles F. McCaffrey was appointed by the court to assist Prosecuting Attorney Sawyers who was busy this afternoon with the grand jury session.

Preliminaries of the trial of Mrs. Clemma Gilmore, accused of the murder of Mrs. Ella Shipps, were well under way until noon, when twenty-one of the first forty men to be selected qualified for places on the jury. A large crowd of men attended the session.

Mrs. Gilmore, wearing a plain black suit and a black hat, and looking much better than she did at the time of her first arraignment, was brought to the court room by Sheriff John F. Dowden. She was accompanied by a friend, Mrs. Josie McGrew, who lives near Maryville. During the process of selecting the jury, Mrs. Gilmore appeared to take great interest in the proceedings, and it was only toward the end of the morning session that she showed any fatigue. When the death penalty was mentioned in putting the questions to the jurors, she was seen to glance quickly toward the jury box as if wondering in a general way what the attitude of the talesmen would be in regard to this matter.

Makes 3 Challenges.

The first challenge of the jury made by Prosecuting Attorney Sawyers was in regard to the conscientious scruples that the members of the jury might have against inflicting the death penalty, in case the evidence warranted it.

The next objection was regarding opinions formed by the talesmen from newspaper reports, rumors, etc., which might affect the rendering of an impartial verdict.

The third challenge presented by Prosecutor Sawyers was as to whether the evidence that Q. A. Gilmore, husband of the accused, was infatuated with Mrs. Ella Shipps, the murdered woman, would or would not influence the jurors in deciding the case. The defense objected to this challenge and the objection was sustained by Judge Dawson.

The First Panel.

In the first panel, A. M. Shafer and John Luke were excused on the fround of conscientious scruples in inflicting the death penalty.

C. J. Merrigan had read newspaper accounts and had heard reports until he had formed an opinion which he said would take extremely strong evidence to remove. He was excused

A. J. Coulter, a farmer living southeast of Bedison, said that he had talked at home and among the neighbors on the facts set forth in the newspapers, but that he had formed no opinion that could not be changed by evidence.

Faye Casteel and Tom Archer were both qualified having formed no previous opinion on the case.

Lou Rogers, a farmer living northeast of Maryville, said that he was acquainted with Mr. Q. A. Gilmore, husband of the accused. Prosecuting Attorney Sawyers asked if heresay or newspaper accounts had made him form an opinion. The defense objected to this and the objection was overruled.

J. A. Alexander, living in the Myrtle Tree neighborhood said that he had formed an opinion based on rumors and newspaper reports, but that he could listen to evidence and give an impartial verdict in the case. Ernest Wray, living six miles northeast of Maryville, was also sure that he could render an impartial decision and both men qualified.

Charles Garrett had read the newspapers and had heard reports, but had neither formed nor expressed an opinion in the case. Mr. Garrett with J. W. Rhodes of Ravenwood, qualified because of this reason. W. T. Jackson of Ravenwood, the last man examined on this panel, qualified because he was sure that previous reading and discussion would not influence his decision as a juror.

W. A. Blagg, representing the defense, asked the qualified members other questions but none were excused.

The Second Panel.

The qualifications on the second panel allowed by Prosecuting Attorney Sawyers, were sustained by the defense.

In the second panel, A. R. Robinson, Ira Chambers and Ed Jones were excused because of conscientious scruples in inflicting the death penalty. W. L. Moorhead of Hopkins was excused because of a previously formed opinion. The others were qualified as follows:

Fred Breit of Parnell, married, had not formed an opinion and had all knowledge of the case from the newspapers and indirect reports and was unacquainted with either family.

Earl Heflin, married, a member of the Catholic church, read the newspaper accounts of the murder but said he could listen to the evidence and render an impartial verdict.

W. I. Gray, 60 years old, said he was not church member and could give an impartial verdict. He was retained.

Robert Aley, 50 years old, and a farmer, had heard reports of the case but had formed no opinion. He was retained.

Willis Oxley, having formed no opinion, was retained.

Editor W. L. Moorhead of the Hopkins Journal had formed an opinion based on inquiries and with people who purported to give actual facts of the case. He was excused.

Ol Coleman had formed an opinion but felt that he could change it if the evidence warranted.

Joseph Holker, married, had not read the newspapers or heard anything concerning the murder.

James Enis of Clyde said he would not be prevented from rendering an impartial verdict by previous reports

WILL PLAY ALBANY

HIGH SCHOOL TEAM CONFIDENT OF WINNING TONIGHT.

DUTCH BAND TO PERFORM

Will Furnish Amusement For Spectators — Game at the Normal Gymnasium.

With the confidence inspired by three successive victories the basketball team of the Maryville High School will enter into tonight's game with Albany with a can't-be-beat spirit. The game will be played on the Normal court at the usual time.

Little is known of the Albany team this season. "Dope" taken from the scores of the games between Albany, Grant City, King City, Stanberry, and Maryville shows Maryville to be somewhat superior. The "dope" however, is so indirect as to be very unreliable and almost useless in basing any prediction as to the outcome of the game.

In previous years Albany has had strong teams and they always took delight in trimming the Maryville teams. Tonight there is due to be a change, according to Coach Schultz and the men on the High School team. The team has been coming strong and hopes for a championship are again beginning to arise.

The line-up will be about the same as usual. Groppe who starred in the Chillicothe game will be at the pivot position. He is developing into a good floor man and is also dangerous as a goal shooter.

Captain Egley will start at his old position at forward. If he is "going right" he will probably score more points than the entire Albany team. In the four games already played this season he has averaged nine goals per game. All he needs is a little improvement in floor work.

Holmes and Condon have been fighting it out for the other place at forward. At last report Condon seemed to have the edge and will start the game.

The co-stars, Martin and Woodward, will fill the guard positions. M. "n is a valuable all-around man. He can play at center or forward equally as well as at guard. Woodward not only plays his position as it should be played, but he instills pep into the whole team and even into the crowd.

Coach Schultz is just beginning to get the rough corners polished off the team. They are improving all the time and tonight's game should be their best.

Besides the game the famous Dutch Band of the High School will furnish amusement for the spectators. The band will perform at the pep assembly at the High School after which it will lead a parade up town to advertise the game. The double attraction should draw a large crowd to the Normal tonight.

GRAND JURY AGAIN

IN SESSION THIS AFTERNOON FOR ITS FINAL TIME.

SHERIDAN CASE IS UP

Two Witnesses From Sheridan Here —Making Investigation of the Death of Mrs. Dowis.

The grand jury is in session again. Their last session was held January 26 and it was thought at that time final adjournment had been taken but instead they retired for a few days. All members of the grand jury were in attendance and the examination of witnesses commenced soon after they met, this afternoon.

The sister of Mrs. Isaac Dowis who died suddenly after taking a dose of castor oil supposed to contain poison, was the first witness on the stand. Another witness from Sheridan, the home of Mrs. Dowis, is the only other witness here today.

The grand jury has made an investigation in the circumstances of the sudden death of Mrs. Dowis. Many people are of the opinion that the women was poisoned with intent.

The jury will probably take final adjournment late this afternoon.

This was the first time that many of the audience had heard Professor Hakel, and his numbers were thoroughly enjoyed. and newspaper accounts.

The Third Panel.

In the third panel Orville Willhoyte, Millard Ellis, Joseph Eaton, Andy Roof, and Henry Heitman were excused because of conscientious scruples in inflicting death penalty.

M. S. Casteel, because of his knowledge of the case and of certain facts connected with it was excused.

William Burks was excused because he was related by marriage to the deceased, Mrs. Shipps.

William Gorton was excused because he had talked to a witness of the crime. M. S. Casteel was disqualified because he knew too much about the case.

J. H. Neal, George Ballard, H. H. McClurg and Charley Moore qualified because of no previous opinion formed. The defense after putting a few questions to these men allowed them to remain qualified.

The Fourth Panel.

A court room nearly full listened to the lawyers at the afternoon session which was in charge of C. F. McCaffrey, appointed by the court to assist Prosecuting Attorney Sawyers. F. H. Burns, J. T. Disney and Leslie Wilson were excused on account of conscientious scruples.

Harvey Hornbuckle and John Hubbel were excused because they were related to Mrs. Gilmore.

Charles Armstrong, living southwest of Barnard, said that he had formed an opinion through reading the newspapers and that he was not sure that this opinion would not influence him in rendering a verdict. Attorney McCaffrey asked the court to excuse him, but Judge Dawson did not think the facts brought out warranted the move but upon further questioning by the attorney, Mr Armstrong was excused.

Ed Husbands, living near Gaynor, read the facts of the case, in the newspapers but did not think that he had formed an opinion in the matter. He qualified.

W. F. Hartman a farmer living south west of Barnard, formed an opinion based on the newspaper reports, but said that he could base a fair and impartial verdict on the evidence presented by both sides.

A. R. Harper of near Maryville, having formed and expressed an opinion on the case based on facts that he knew concerning the persons involved, was excused.

M. L. Griggs, of near Guilford, had read of the case, but had not formed or expressed an opinion. In addition to this he was unacquainted with either family. Consequently, he qualified.

Attorney Blagg cut short the questioning upon an assurance from the remaining jurors that they were ready to render service as jurors with an open mind.

The Fifth Panel.

Fred Neal, Bruce Wilson and L. E. Morrell were excused at the beginning of the examination of the fifth panel of talesmen.

Ed Allen of Conception said he had lived in Nodaway county nearly all his life. He had heard of the case through the newspapers and had heard it discussed. He had formed an opinion in the matter, and upon a statement that he would as juror render an impartial verdict, was qualified as a juror. Mr. Allen was one of the trial jurors in the case of State vs. Dunn.

A. E. Hopper, Elmo, by reading and discussion, had not formed an opinion in the case, and knew none of the persons connected with the case. He qualified. A. N. Kirbey, Elmo, qualified under these same conditions.

George W. Cole, assistant cashier of the Barnard bank, had talked to a relative of Mrs. Shipps. He had formed an opinion which he believed to be fixed on account of familiarity with the family of Mrs. Shipps. He was excused.

James Lewis, living 11 miles northeast of Maryville, said that he had held discussions of the incident learned through the newspapers, and that he had formed an opinion which could only be removed by strong evidence. He did not think, however, that this opinion would prevent him from rendering an impartial verdict. He was acquainted with Mrs. Shipps twenty-five year ago.

Frank Johnston, 10 miles northeast of Maryville, enlivened the rather slow process of selecting the jurors by his answers to Attorney McCaffrey.

"Have you any family?" asked Attorney McCaffrey.

"A small one," answered Mr. Johnston.

"How many children," queried the attorney.

"Eight boys and six girls," responded Mr. Johnston.

A general laugh went around the courtroom. Judge Dawson rapped for order.

Another question: "Would the fact that the defendant was a women influence you?" asked Attorney McCaffrey.

"It might. But there's this much about it—it wouldn't make it any worse," responded the redoubtable Mr. Johnston. Mr. Johnston explained what he meant and then qualified.

I. V. Moore, living near Harmony district was disqualified because he had talked to a witness of the tragedy and had formed an opinion.

John Griffin of near Gaynor, because he had not formed nor expressed an opinion on the case qualified.

Frank Black, Hopkins, qualified, having no prejudices in the case.

Robert Groom had hard luck Tuesday, when five fine young shoats, averaging about 100 pounds, dropped dead and two more came near dying. Robert emptied a bottle of medicine into the slop he was feeding them and in five minutes the five were dead. The medicine had been used by an old darkey that stayed on his place.—Liberty Tribune.

The Store That is Anxious to please.

THESE PRUNING METHODS MAY PUT YOUR ORCHARD ON A PAYING BASIS.

Farmers who wish to put their orchards in shape for profitable production should begin pruning, whenever the wood is not frozen, in mid-winter. Trees in heavy bearing condition will make stronger growth if pruning is done during late winter and early spring. Pruning during June and July will slightly check the rank growth on trees that are making too much wood growth and tend to throw them into bearing for the following year. Dr. J. C. Whitten, Professor of Horticulture in the Missouri College of Agriculture, gives directions for the winter pruning.

Remove all dead or badly diseased limbs. Clean out all canker wounds on the trunk and main limbs with a tree scraper. Cut well into the rim of healthy wood on all sides of the wound, to get rid of the disease. Then paint the wound with common white lead and oil paint, to each quart of which has been added one teaspoonful of bichloride of mercury dissolved in turpentine (about one ounce). Paint all canker and pruning wounds as soon as made.

Begin at the top and prune the tree to secure a low, broad spreading branching system, with open center, to admit sunlight and air from above. Do not remove strong lower limbs if they can be given sufficient light from above. Aim to secure bearing branches throughout the main body of the tree. If the tree is shaded by too much growth at the top, the inner and lower twigs will weaken and die instead of bearing fruit.

Cut back the strong, upward growing central limbs to outward growing side branches. This induces the tree to spread laterally instead of growing too high. It admits light through the center to fruit bearing branches below. If limbs cross each other or crowd badly, thin them out enough to admit filtered sunlight to all parts of the tree.

In pruning, cut limbs close, so as to leave no stub or knot. A protruding knot will not heal. A wound cut close will allow the growing layer to close over the wound.

Paint all wounds over one-half inch in diameter with the disinfected paint. Disinfect saw or other pruning blades with carbolic acid after pruning cankered or diseased spots.

"Peaceful Village."

Warden William R. Painter has already fumigated the jail stink from the Missouri "stir." He has doffed the walls—yesterday as "drab as a dead man's hands"—til they radiate the roseate hues of the rainbow. He has done so with a few strokes of the brush of fancy, frescoing on the fleecy clouds that trail their castles of glory and cliffs of gold 'cross the visions of the vics., the phrase "Peaceful Village" as a term to designate the home of those—who have been found out. Warden Painter has substituted sunshine for the solitary cell, the honor system for the iron rings; beneath the crucible of kindness he has built the fire of friendship, and from the melting pot of his mercy will come MEN. With the aid and advice of other leading members of the party he has wrought business principles on which to conduct "Peaceful Village," and it will become a financial and euphemistic success.

Fresh elk meat was on sale at a Grant City meat market last week, says the Worth County Times. There is a deer and elk park in Worth County—on the farm of C. H. McQuigg. Some time ago a large elk escaped and became an outlaw, jumping fences at will. All attempts to drive him back to the park were unsuccessful and for that reason at Mr. McQuigg's order he was shot.

"QUEEN" Incubators and Brooders

Advantages of Hot Water Heating—The Queen Hot Water System eliminates the injurious drying out tendency found in all Hot Air Incubators. It maintains an even temperature in every part of the egg chamber and in case the lamp is forgotten the heat stored in the water will keep the eggs warm for many hours. Hot water is admittedly the best heat for your home, and by adopting this system, the Queen has established a standard of excellence in artificial incubation not attained by any other incubator.

A NATION OF SUICIDES

Thousands Go To Untimely Graves Unnecessarily Every Year, Says Dr. Drake.

Most Diseases Can Be Cured If Treated In Time, While Delay Often Means Death

"The span of human life is much too short in America," said Dr. Drake, the new authority in chronic diseases, who has opened a branch office here at the Hotel Mack. "The stiffness of joints, the bound muscles, the hardened arteries and weakened hearts, the poor circulation, the weakened digestive system, all of which come with advancing age, are caused by mineral deposits, acid toxins and poisons, which are allowed to settle in the body. There is not enough elimination or driving out of waste going on. The blood vessels and nerves are allowed to become clogged, the glandular structures, such as the kidneys, liver, spleen and pancreas, are bound up and weakened in their action, so that they lesen their activity more and more until the body becomes a charnel house of disease and poisons. Then the body either dies from some disease brought on by the above conditions, or else advances into the weakness of premature old age. Man should live in good health to 100 years, and under proper advice he can do it. He must first live so that his body will be fresh and clean inside and out at all times, so that no more toxins, deposits and bacteria can find lodgemenet. The way is easy and the rewards great in good health and long life. Funny, isn't it, a man will take better care of the machinery of his automobile than he will the delicate machinery of his body?

Drs. Drake & Tyson are making a life work of renewing the human body. They prove their theories and then carry them out in their great practice, as hundreds in Missouri and surrounding states testify.

Cameron, Mo., 1-16-17.

To all Sufferers:

I have been ill five years, confined to bed a large part of the time and had not walked a step in a year and a half, suffering from what some doctors thought was tuberculosis and Bright's disease. I took treatment from doctors and others with no beneficial results. I was persuaded to consult Drs. Drake & Tyson of St. Joseph. After a thorough and scientific examination they diagnosed my case and told me they would have me walking in a short time, and that my case was a curable one. I commenced to improve from the start—in one week it was very noticable to my friends and relatives; in one month I told my husband to throw my invalid chair away, and was walking some. I have gained 20 pounds in weight and feel that I have a new lease on life.

I thank God that there are such doctors as Drake & Tyson and hope and pray that this may be the means of bringing some poor sufferer from the depths of despair to health and happiness.

Committee Predicts That Cameron Will Be Able to Raise the $75,000 Necessary.

Cameron, Mo., Feb. 9.—That Cameron will be able to raise the $75,000 necessary to keep the Missouri Wesleyan college here, was the prediction here today of the committee that is making the canvass for the funds. At the meeting of the trustees a month ago, it was voted to reject Chillicothe's offer of approximately $140,000, realizing Cameron's long faithfulness to the interest of the college and the large amounts of money already contributed by the citizens here.

The trustees will have another meeting here a week from tomorrow and it is expected that pledges for the necessary amount will be in hand.

Chillicothe offered $100,000 in cash for the erection of a main college building and two dormitories, and offered the choice of several sites, one of twenty acres in the northwest part of the city. It also promised the last $25,000 of the endowment fund of a half million dollars, $200,000 of which already has been raised.

Maitland's first Ford car, one of the vintage of 1909, is still running. Its purchase price was $950 and Fred Carpenter who bought it at that figure has driven it since then 150,000 miles. The Herald says it's going as well today as it ever did.

Sharp's Grove, near Craig, is the latest addition to the localities reporting the presence of the mysterious "panther," which howls so much like a real panther that those hearing it stay home at night.

HERNDON A MILLIONAIRE

Former Maryville Man Now Residing In Kansas City Is Said to Have Cleaned Up on Real Estate.

The following is from this week's Sheridan Advance about O. K. Herndon, formerly a resident of Maryville:

"Word reached Sheridan within the last few days that Oscar Herndon, a former Sheridan man was now rated as a millionaire. Some time ago he and several other men bought a tract of land in Texas. They began work on an irrigation project and while the boom was on Mr. Herndon sold out and cleaned up a nice sum. A little while later he was a heavy investor in Kansas land where the company drilled for oil. The success of the company is told in the new made millionaire as told above. Mr. Herndon has always been a keen trader, but few thought he would meet with such financial success as he has. He is now officing in Kansas City. The next time you are in the city, call and touch him for a few thousand, if not for your sake, for the editor's sake.."

New P. O. For Farmington.

Special to The Democrat-Forum.

Farmington, Mo., Feb. 9.—Farmington will soon have its new postoffice building. All details connected with the proposed government building have been settled, except as to the site, which, however, will be chosen very soon.

The government proposes paying only $5,000 for a site, but no favorable location is to be had for that price. A movement is under way, however, to raise by subscription the difference between $5,000 and the price placed upon a desirable location that may be secured.

For A Permanent Organization.

The decision to make the Democrat State Committee a permanent organization has met with the distinct favor of the rank and file of the party. It was a wise move to thus in time of truce prepare for trouble. With the record being made by the administration, and the Assembly, and with Judge James Cowgill as General of the Democrats' Army, the Republicans will cut about the same sized swath in state elections as will a safety razor in a Missouri wheat field.

Getting Along Without Palate.

St. Louis, Mo., Feb. 9.—Although he was born without a palate, Rudolph Meko, a six-year-old orphan, who has existed on liquid nourishment, soon hopes to taste solid foods.

All that appeared in Rudolph's throat resembling a palate was a slit. Doctors at City hospital pinned the slit together with silver pins, hoping it would knit. It did, and now the physicians say the boy will be able to eat solids in about a week.

VOLUME 7. MARYVILLE, MISSOURI, FRIDAY, FEB. 9, 1917. NO. 215.

GILMORE TRIAL BEGINS TODAY

31 JURORS OUT OF 60 SELECTED FOR THE PANEL OF 40.

M'CAFFREY ASSISTS PROSECUTOR SAWYERS

The Selection of the Jury of Twelve Will Take Place Tomorrow — Mrs. Gilmore in Good Health.

At four o'clock this afternoon thirty-one had qualified for the panel of forty from which the jury of twelve will be selected. They are:

Ernest Wray, Charles Garrett, Lou Rogers, James W. Rhodes, W. T. Jackson, Joe Alexander, H. A. Coulter, Fay Casteel, T. E. Archer, Willis Oxley, Joe Holker, Ol Coleman, James Enis, Robert Aley, W. I. Gray, Earl Heflin, Fred Breit, George Ballard, Charles Moore, H. H. McClurg, J. H. Neal, J. V. Pugh, M. L. Griggs, W. F. Hartman, A. M. Sutton, Ed Husbands, F O. Black, A. M. Kirby, A. E. Hopper, Ed Allen, James Lewis.

The panel of forty will be selected late this afternoon and the selection of the jury will take place tomorrow.

Charles F. McCaffrey was appointed by the court to assist Prosecuting Attorney Sawyers who was busy this afternoon with the grand jury session.

Preliminaries of the trial of Mrs. Clemma Gilmore, accused of the murder of Mrs. Ella Shipps, were well under way until noon, when twenty-one of the first forty men to be selected qualified for places on the jury. A large crowd of men attended the session.

Mrs. Gilmore, wearing a plain black suit and a black hat, and looking much better than she did at the time of her first arraignment, was brought to the court room by Sheriff John F. Dowden. She was accompanied by a friend, Mrs. Josie McGrew, who lives near Maryville. During the process of selecting the jury, Mrs. Gilmore appeared to take great interest in the proceedings, and it was only toward the end of the morning session that she showed any fatigue. When the death penalty was mentioned in putting the questions to the jurors, she was seen to glance quickly toward the jury box as if wondering in a general way what the attitude of the talesmen would be in regard to this matter.

Makes 3 Challenges.

The first challenge of the jury made by Prosecuting Attorney Sawyers was in regard to the conscientious scruples that the members of the jury might have against inflicting the death penalty, in case the evidence warranted it.

The next objection was regarding opinions formed by the talesmen from newspaper reports, rumors, etc., which might affect the rendering of an impartial verdict.

The third challenge presented by Prosecutor Sawyers was as to whether the evidence that Q. A. Gilmore, husband of the accused, was infatuated with Mrs. Ella Shipps, the murdered woman, would or would not influence the jurors in deciding the case. The defense objected to this challenge and the objection was sustained by Judge Dawson.

The First Panel.

In the first panel, A. M. Shafer and John Luke were excused on the fround of conscientious scruples in inflicting the death penalty.

C. J. Merrigan had read newspaper accounts and had heard reports until he had formed an opinion which he said would take extremely strong evidence to remove. He was excused.

A. J. Coulter, a farmer living southeast of Bedison, said that he had talked at home and among the neighbors on the facts set forth in the newspapers, but that he had formed no opinion that could not be changed by evidence.

Faye Casteel and Tom Archer were both qualified having formed no previous opinion on the case.

Lou Rogers, a farmer living northeast of Maryville, said that he was acquainted with Mr. Q. A. Gilmore, husband of the accused. Prosecuting Attorney Sawyers asked if heresay or newspaper accounts had made him form an opinion. The defense objected to this and the objection was overruled.

J. A. Alexander, living in the Myrtle Tree neighborhood said that he had formed an opinion based on rumors and newspaper reports, but that he could listen to evidence and give an impartial verdict in the case. Ernest Wray, living six miles northeast of Maryville, was also sure that he could render an impartial decision and both men qualified.

Charles Garrett had read the newspapers and had heard reports, but had neither formed nor expressed an opinion in the case. Mr. Garrett with J. W. Rhodes of Ravenwood, qualified because of this reason. W. T. Jackson of Ravenwood, the last man examined on this panel, qualified because he was sure that previous reading and discussion would not influence his decision as a juror.

W. A. Blagg, representing the defense, asked the qualified members other questions but none were excused.

The Second Panel.

The qualifications on the second panel allowed by Prosecuting Attorney Sawyers, were sustained by the defense.

In the second panel, A. R. Robinson, Ira Chambers and Ed Jones were excused because of conscientious scruples in inflicting the death penalty. W. L. Moorhead of Hopkins was excused because of a previously formed opinion. The others were qualified as follows:

Fred Breit of Parnell, married, had not formed an opinion and had all knowledge of the case from the newspapers and indirect reports and was unacquainted with either family.

Earl Heflin, married, a member of the Catholic church, read the newspaper accounts of the murder but said he could listen to the evidence and render an impartial verdict.

W. I. Gray, 60 years old, said he was not church member and could give an impartial verdict. He was retained.

Robert Aley, 50 years old, and a farmer, had heard reports of the case but had formed no opinion. He was retained.

Willis Oxley, having formed no opinion, was retained.

Editor W. L. Moorhead of the Hopkins Journal had formed an opinion based on inquiries and with people who purported to give actual facts of the case. He was excused.

Ol Coleman had formed an opinion but felt that he could change it if the evidence warranted.

Joseph Holker, married, had not read the newspapers or heard anything concerning the murder.

James Enis of Clyde said he would not be prevented from rendering an impartial verdict by previous reports

WILL PLAY ALBANY

HIGH SCHOOL TEAM CONFIDENT OF WINNING TONIGHT.

DUTCH BAND TO PERFORM

Will Furnish Amusement For Spectators — Game at the Normal Gymnasium.

With the confidence inspired by three successive victories the basketball team of the Maryville High School will enter into tonight's game with Albany with a can't-be-beat spirit. The game will be played on the Normal court at the usual time.

Little is known of the Albany team this season. "Dope" taken from the scores of the games between Albany, Grant City, King City, Stanberry, and Maryville shows Maryville to be somewhat superior. The "dope" however, is so indirect as to be very unreliable and almost useless in basing any prediction as to the outcome of the game.

In previous years Albany has had strong teams and they always took delight in trimming the Maryville teams. Tonight there is due to be a change, according to Coach Schultz and the men on the High School team. The team has been coming strong and hopes for a championship are again beginning to arise.

The line-up will be about the same as usual. Groppe who starred in the Chillicothe game will be at the pivot position. He is developing into a good floor man and is also dangerous as a goal shooter.

Captain Egley will start at his old position at forward. If he is "going right" he will probably score more points than the entire Albany team. In the four games already played this season he has averaged nine goals per game. All he needs is a little improvement in floor work.

Holmes and Condon have been fighting it out for the other place at forward. At last report Condon seemed to have the edge and will start the game.

The co-stars, Martin and Woodward, will fill the guard positions. Martin is a valuable all-around man. He can play at center or forward equally as well as at guard. Woodward not only plays his position as it should be played, but he instills pep into the whole team and even into the crowd.

Coach Schultz is just beginning to get the rough corners polished off the team. They are improving all the time and tonight's game should be their best.

Besides the game the famous Dutch Band of the High School will furnish amusement for the spectators. The band will perform at the pep assembly at the High School after which it will lead a parade up town to advertise the game. The double attraction should draw a large crowd to the Normal tonight.

GRAND JURY AGAIN

IN SESSION THIS AFTERNOON FOR ITS FINAL TIME.

SHERIDAN CASE IS UP

Two Witnesses From Sheridan Here —Making Investigation of the Death of Mrs. Dowis.

The grand jury is in session again. Their last session was held January 26 and it was thought at that time final adjournment had been taken but instead they retired for a few days. All members of the grand jury were in attendance and the examination of witnesses commenced soon after they met, this afternoon.

The sister of Mrs. Isaac Dowis who died suddenly after taking a dose of castor oil supposed to contain poison, was the first witness on the stand. Another witness from Sheridan, the home of Mrs. Dowis, is the only other witness here today.

The grand jury has made an investigation in the circumstances of the sudden death of Mrs. Dowis. Many people are of the opinion that the women was poisoned with intent.

The jury will probably take final adjournment late this afternoon.

SMALL CROWD AT RECITAL

Mrs. Besse Gates Hall, Assisted by Prof. Fred Lewis Hakel Gave A Varied Program.

A small number of Maryville music lovers attended the song recital at the First Methodist church last night in which Mrs. Besse Gates Hall, contralto, appeared as soloist, assisted by Prof. Lewis Hakel of the Maryville Conservatory.

Mrs. Hall's program consisted of various selections best calculated to show to advantage the range of her voice. The numbers especially enjoyed by the audience were "The Asra," by Rubenstein, "The Star," by J. H. Rogers, and "I Dream of a Garden," by Lohr.

This was the first time that many of the audience had heard Professor Hakel, and his numbers were thoroughly enjoyed. His "Variation of a Theme by Tartini," (Kreisler) was excellently played and was received with enthusiasm by his hearers. He responded to vigorous hand clapping with an encore which was also well rendered.

NEGRO A BRITISH SUBJECT

George Washington Who Lost His Life On the Turino Was Not an American Citizen, Says Frost.

Special to The Democrat-Forum.

Washington, Feb. 9.—The state department is still anxious today over the continued absence of any definite word concerning the detention of Gerard, who has been out of touch with Washington for four days.

"I am very loath" said Secretary of State Lansing "to believe the German government is intentionally holding Gerard for any excuse whatever. The department has made inquiry but so far no reason has been given for the delay."

President Wilson and cabinet had before them this afternoon all information so far compiled by the state department dealing with the new submarine activities. Those closest to the president didn't expect any change in the policy to be reached today.

and newspaper accounts.

The Third Panel.

In the third panel Orville Willhoyte, Millard Ellis, Joseph Eaton, Andy Roof, and Henry Heitman were excused because of conscientious scruples in inflicting death penalty.

M. S. Casteel, because of his knowledge of the case and of certain facts connected with it was excused.

William Burks was excused because he was related by marriage to the deceased, Mrs. Shipps.

William Gorton was excused because he had talked to a witness of the crime. M. S. Casteel was disqualified because he knew too much about the case.

J. H. Neal, George Ballard, H. H. McClurg and Charley Moore qualified because of no previous opinion formed. The defense after putting a few questions to these men allowed them to remain qualified.

The Fourth Panel.

A court room nearly full listened to the lawyers at the afternoon session which was in charge of C. F. McCaffrey, appointed by the court to assist Prosecuting Attorney Sawyers. F. H. Burns, J. T. Disney and Leslie Wilson were excused on account of conscientious scruples.

Harvey Hornbuckle and John Hubbel were excused because they were related to Mrs. Gilmore.

Charles Armstrong, living southwest of Barnard, said that he had formed an opinion through reading the newspapers and that he was not sure that this opinion would not influence him in rendering a verdict. Attorney McCaffrey asked the court to excuse him, but Judge Dawson did not think the facts brought out warranted the move but upon further questioning by the attorney, Mr Armstrong was excused.

Ed Husbands, living near Gaynor, read the facts of the case, in the newspapers but did not think that he had formed an opinion in the matter. He qualified.

W. F. Hartman a farmer living south west of Barnard, formed an opinion based on the newspaper reports, but said that he could base a fair and impartial verdict on the evidence presented by both sides.

A. R. Harper of near Maryville, having formed and expressed an opinion on the case based on facts that he knew concerning the persons involved, was excused.

M. L. Griggs, of near Guilford, had read of the case, but had not formed or expressed an opinion. In addition to this he was unacquainted with either family. Consequently, he qualified.

Attorney Blagg cut short the questioning upon an assurance from the remaining jurors that they were ready to render service as jurors with an open mind.

The Fifth Panel.

Fred Neal, Bruce Wilson and L. E. Morrell were excused at the beginning of the examination of the fifth panel of talesmen.

Ed Allen of Conception said he had lived in Nodaway county nearly all his life. He had heard of the case through the newspapers and had heard it discussed. He had formed an opinion in the matter, and upon a statement that he would as juror render an impartial verdict, was qualified as a juror. Mr. Allen was one of the trial jurors in the case of State vs. Dunn.

A. E. Hopper, Elmo, by reading and discussion, had not formed an opinion in the case, and knew none of the persons connected with the case. He qualified. A. N. Kirbey, Elmo, qualified under these same conditions.

George W. Cole, assistant cashier of the Barnard bank, had talked to a relative of Mrs. Shipps. He had formed an opinion which he believed to be fixed on account of familiarity with the family of Mrs. Shipps. He was excused.

James Lewis, living 11 miles northeast of Maryville, said that he had held discussions of the incident learned through the newspapers, and that he had formed an opinion which could only be removed by strong evidence. He did not think, however, that this opinion would prevent him from rendering an impartial verdict. He was acquainted with Mrs. Shipps twenty-five year ago.

Frank Johnston, 10 miles northeast of Maryville, enlivened the rather slow process of selecting the jurors by his answers to Attorney McCaffrey.

"Have you any family?" asked Attorney McCaffrey.

"A small one," answered Mr. Johnston.

"How many children," queried the attorney.

"Eight boys and six girls," responded Mr. Johnston.

A general laugh went around the courtroom. Judge Dawson rapped for order.

Another question: "Would the fact that the defendant was a women influence you?" asked Attorney McCaffrey.

"It might. But there's this much about it—it wouldn't make it any worse," responded the redoubtable Mr. Johnston. Mr. Johnston explained what he meant and then qualified.

I. V. Moore, living near Harmony district was disqualified because he had talked to a witness of the tragedy and had formed an opinion.

John Griffin of near Gaynor, because he had not formed nor expressed an opinion on the case qualified.

Frank Black, Hopkins, qualified, having no prejudices in the case.

The One Hundred Veniremen.

Robert Groom had hard luck Tuesday, when five fine young shoats, averaging about 100 pounds, dropped dead and two more came near dying. Robert emptied a bottle of medicine into the slop he was feeding them and in five minutes the five were dead. The medicine had been used by an old darkey that stayed on his place.—Liberty Tribune.

The Store That is Anxious to please.

THESE PRUNING METHODS MAY PUT YOUR ORCHARD ON A PAYING BASIS.

Farmers who wish to put their orchards in shape for profitable production should begin pruning, whenever the wood is not frozen, in mid-winter. Trees in heavy bearing condition will make stronger growth if pruning is done during late winter and early spring. Pruning during June and July will slightly check the rank growth on trees that are making too much wood growth and tend to throw them into bearing for the following year. Dr. J. C. Whitten, Professor of Horticulture in the Missouri College of Agriculture, gives directions for the winter pruning.

Remove all dead or badly diseased limbs. Clean out all canker wounds on the trunk and main limbs with a tree scraper. Cut well into the rim of healthy wood on all sides of the wound, to get rid of the disease. Then paint the wound with common white lead and oil paint, to each quart of which has been added one teaspoonful of bichloride of mercury dissolved in turpentine (about one ounce). Paint all canker and pruning wounds as soon as made.

Begin at the top and prune the tree to secure a low, broad spreading branching system, with open center, to admit sunlight and air from above. Do not remove strong lower limbs if they can be given sufficient light from above. Aim to secure bearing branches throughout the main body of the tree. If the tree is shaded by too much growth at the top, the inner and lower twigs will weaken and die instead of bearing fruit.

Cut back the strong, upward growing central limbs to outward growing side branches. This induces the tree to spread laterally instead of growing too high. It admits light through the center to fruit bearing branches below. If limbs cross each other or crowd badly, thin them out enough to admit filtered sunlight to all parts of the tree.

In pruning, cut limbs close, so as to leave no stub or knot. A protruding knot will not heal. A wound cut close will allow the growing layer to close over the wound.

Paint all wounds over one-half inch in diameter with the disinfected paint. Disinfect saw or other pruning blades with carbolic acid after pruning cankered or diseased spots.

"Peaceful Village."

Warden William R. Painter has already fumigated the jail stink from the Missouri "stir." He has dolled the walls—yesterday as "drab as a dead man's hands"—'til they radiate the roseate hues of the rainbow. He has done so with a few strokes of the brush of fancy, frescoing on the fleecy clouds that trail their castles of glory and cliffs of gold 'cross the visions of the vics., the phrase "Peaceful Village" as a term to designate the home of those—who have been found out. Warden Painter has substituted sunshine for the solitary cell, the honor system for the iron rings; beneath the crucible of kindness he has built the fire of friendship, and from the melting pot of his mercy will come MEN. With the aid and advice of other leading members of the party he has wrought business principles on which to conduct "Peaceful Village," and it will become a financial and euphemistic success.

Fresh elk meat was on sale at a Grant City meat market last week, says the Worth County Times. There is a deer and elk park in Worth County—on the farm of C. H. McQuigg. Some time ago a large elk escaped and became an outlaw, jumping fences at will. All attempts to drive him back to the park were unsuccessful and for that reason at Mr. McQuigg's order he was shot.

"QUEEN" Incubators and Brooders

Advantages of Hot Water Heating—The Queen Hot Water System eliminates the injurious drying out tendency found in all Hot Air Incubators. It maintains an even temperature in every part of the egg chamber and in case the lamp is forgotten the heat stored in the water will keep the eggs warm for many hours. Hot water is admittedly the best heat for your home, and by adopting this system, the Queen has established a standard of excellence in artificial incubation not attained by any other incubator.

A NATION OF SUICIDES

Thousands Go To Untimely Graves Unnecessarily Every Year, Says Dr. Drake.

Most Diseases Can Be Cured If Treated In Time, While Delay Often Means Death

"The span of human life is much too short in America," said Dr. Drake, the new authority in chronic diseases, who has opened a branch office here at the Hotel Mack. "The stiffness of joints, the bound muscles, the hardened arteries and weakened hearts, the poor circulation, the weakened digestive system, all of which come with advancing age, are caused by mineral deposits, acid toxins and poisons, which are allowed to settle in the body. There is not enough elimination or driving out of waste going on. The blood vessels and nerves are allowed to become clogged, the glandular structures, such as the kidneys, liver, spleen and pancreas, are bound up and weakened in their action, so that they lesen their activity more and more until the body becomes a charnel house of disease and poisons. Then the body either dies from some disease brought on by the above conditions, or else advances into the weakness of premature old age. Man should live in good health to 100 years, and under proper advice he can do it. He must first live so that his body will be fresh and clean inside and out at all times, so that no more toxins, deposits and bacteria can find lodgemenet. The way is easy and the rewards great in good health and long life. Funny, isn't it, a man will take better care of the machinery of his automobile than he will the delicate machinery of his body?

Drs. Drake & Tyson are making a life work of renewing the human body. They prove their theories and then carry them out in their great practice, as hundreds in Missouri and surrounding states testify.

Cameron, Mo., 1-16-17.

To all Sufferers:

I have been ill five years, confined to bed a large part of the time and had not walked a step in a year and a half, suffering from what some doctors thought was tuberculosis and Bright's disease. I took treatment from doctors and others with no beneficial results. I was persuaded to consult Drs. Drake & Tyson of St. Joseph. After a thorough and scientific examination they diagnosed my case and told me they would have me walking in a short time, and that my case was a curable one. I commenced to improve from the start—in one week it was very noticable to my friends and relatives; in one month I told my husband to throw my invalid chair away, and was walking some. I have gained 20 pounds in weight and feel that I have a new lease on life.

I thank God that there are such doctors as Drake & Tyson and hope and pray that this may be the means of bringing some poor sufferer from the depths of despair to health and happiness.

Committee Predicts That Cameron Will Be Able to Raise the $75,000 Necessary.

Cameron, Mo., Feb. 9.—That Cameron will be able to raise the $75,000 necessary to keep the Missouri Wesleyan college here, was the prediction here today of the committee that is making the canvass for the funds. At the meeting of the trustees a month ago, it was voted to reject Chillicothe's offer of approximately $140,000, realizing Cameron's long faithfulness to the interest of the college and the large amounts of money already contributed by the citizens here.

The trustees will have another meeting here a week from tomorrow and it is expected that pledges for the necessary amount will be in hand.

Chillicothe offered $100,000 in cash for the erection of a main college building and two dormitories, and offered the choice of several sites, one of twenty acres in the northwest part of the city. It also promised the last $25,000 of the endowment fund of a half million dollars, $200,000 of which already has been raised.

Maitland's first Ford car, one of the vintage of 1909, is still running. Its purchase price was $950 and Fred Carpenter who bought it at that figure has driven it since then 150,000 miles. The Herald says it's going as well today as it ever did.

HERNDON A MILLIONAIRE

Former Maryville Man Now Residing In Kansas City Is Said to Have Cleaned Up on Real Estate.

The following is from this week's Sheridan Advance about O. K. Herndon, formerly a resident of Maryville:

"Word reached Sheridan within the last few days that Oscar Herndon, a former Sheridan man was now rated as a millionaire. Some time ago he and several other men bought a tract of land in Texas. They began work on an irrigation project and while the boom was on Mr. Herndon sold out and cleaned up a nice sum. A little while later he was a heavy investor in Kansas land where the company drilled for oil. The success of the company is told in the new made millionaire as told above. Mr. Herndon has always been a keen trader, but few thought he would meet with such financial success as he has. He is now officing in Kansas City. The next time you are in the city, call and touch him for a few thousand, if not for your sake, for the editor's sake."

New P. O. For Farmington.

Special to The Democrat-Forum.

Farmington, Mo., Feb. 9.—Farmington will soon have its new postoffice building. All details connected with the proposed government building have been settled, except as to the site, which, however, will be chosen very soon.

The government proposes paying only $5,000 for a site, but no favorable location is to be had for that price. A movement is under way, however, to raise by subscription the difference between $5,000 and the price placed upon a desirable location that may be secured.

For A Permanent Organization.

The decision to make the Democrat State Committee a permanent organization has met with the distinct favor of the rank and file of the party. It was a wise move to thus in time of truce prepare for trouble. With the record being made by the administration, and the Assembly, and with Judge James Cowgill as General of the Democrats' Army, the Republicans will cut about the same sized swath in state elections as will a safety razor in a Missouri wheat field.

St. Louis, Mo., Feb. 9.—Although he was born without a palate, Rudolph Meko, a six-year-old orphan, who has existed on liquid nourishment, soon hopes to taste solid foods.

All that appeared in Rudolph's throat resembling a palate was a slit. Doctors at City hospital pinned the slit together with silver pins, hoping it would knit. It did, and now the physicians say the boy will be able to eat solids in about a week.

Ruddy Cheeks—Sparkling Eyes —Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women as well as men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then just to keep in the pink of condition. 10c and 25c per box. All druggists.
